Bin-Dok

Dedicated to Quality

The Residential Range

**Combining
aesthetics,
functionality &
design.**

The Metropolitan

The Metropolitan Enclosure

Images are for illustration purposes only and may be subject to change

Features and Benefits

- Ideal for private or terraced housing with no access to back garden
- Lockable lid for additional security
- User friendly gas rams to ensure safety when using
- Fully galvanized and powder coated finish ensuring excellent and long lasting finish
- Ideal for garden storage
- Holds up to three wheelie bins

The Bin-Dok Enclosure range was designed to enhance the aesthetic appearance of the home, garden or outside environment. It's aesthetically pleasing furniture finish provides a great way to hide your unsightly wheelie bins, while the built in automatic bin lid opening offers a more hygienic access to waste disposal.

The Bin-Dok Enclosure used pressure treated, stained cedar panels, ensuring an aesthetically pleasing finish. Complemented with a dip galvanized, powder coated frame, this ensures the product will endure all weather conditions for many years to come.

If you are looking for that something extra to bring the finishing touch to your residential development, The Metropolitan, through its combination of style and functionality is the answer.

The Urban Enclosure

Features and Benefits

- Ideal for private or terraced housing with no access to back garden
- Lockable lid for additional security
- User friendly gas rams to ensure safety when using
- Fully galvanized and powder coated finish ensuring excellent and long lasting finish
- Ideal for garden storage
- Holds up to three wheelie bins

The Bin-Dok Enclosure range was designed to enhance the aesthetic appearance of the home, garden or outside environment. It's aesthetically pleasing furniture finish provides a great way to hide your unsightly wheelie bins, while the built in automatic bin lid opening offers a more hygienic access to waste disposal.

The Bin-Dok Enclosure used pressure treated, painted timber panels, ensuring an aesthetically pleasing finish. Complemented with a dip galvanised, powder coated frame, this ensures the product will endure all weather conditions for many years to come.

If you are looking for that something extra to bring the finishing touch to your residential development, The Urban, through its combination of style and functionality is the answer.

The Residential range eliminates the issues of constantly having your household bins on display

Cairn Homes have been using the Urban Enclosures in developments across Ireland including Elsmore, Naas.
